## POLYCARBONATE DRINKWARE

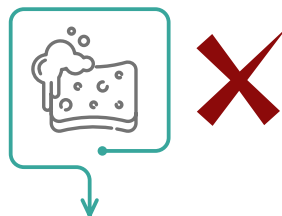

## PRODUCT CARE

Dishwasher safe.  
Place items carefully in the dishwasher, avoiding direct contact with other dishes and cups.

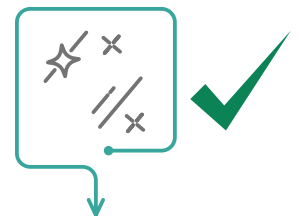

Alternatively, use warm soapy water or neutral dishwashing liquid for cleaning.

Do not wash with harsh abrasives-chemicals, brushes or scrubber pads - as this way may cause scratches.

Do not use strong acid or alkali cleaning.

Not recommended for use in the microwave and high temperature sterilizer. Avoid near the fire.

Dry naturally or with a soft cloth after hand wash. Recommended microfiber cloth, this will make the product remain shining.

Avoid stacking them - as this way may cause scratches
