# QUALITY WITHOUT COMPROMISE

## ABOUT ARIANE

The successful combination of professional experience, creativity, unparalleled technical know-how and attention to finesse, places Ariane Fine Porcelain in a leadership position in the porcelain table-ware industry.

Through our state of the art production technique, advanced technical know-how, and creative team of experts is born a durable, high quality product, suitable for all fine hospitality, catering and food & beverage establishments.

— CREATIVITY · FUNCTIONALITY · DURABILITY —

**Hospitality is a demanding industry that has specific, ever-evolving needs. The unique blend and amalgamation of raw materials, breakthrough technology and a quality assurance team, guarantees that all Ariane Fine Porcelain items are kept in line with these requirements.**

### DISHWASHER SAFE

Our porcelain is fired at high temperatures which makes it highly resistant to repeated dishwashing cycles at high temperature.

### THERMAL SHOCK PROOF

Ariane Fine Porcelain not only retains heat to keep the food warm, but also is resistant to variations in temperature.

### MICROWAVE & SALAMANDER SAFE

Ariane Porcelain products are both microwave and salamander safe due to their heat-resistant layer of glaze.

### PERFECT FUNCTIONALITY

All our designs focus on absolute functionality. Most items are stackable including cups, bowls and platters, which enables the most efficient use of space.

### SMOOTH APPEARANCE

The special glaze fired at high temperatures not only gives all our porcelain a smooth, clean finish, but also ensures that it becomes completely non-porous, guaranteeing higher levels of hygiene.

### HIGH CHIP RESISTANCE

The special high alumina material used by Ariane Fine Porcelain offers strength, durability and resistance against chipping to critical points like edges of cups, plates and handles.

### ABRASION PROOF

The special glazing fired under high temperature ensures strong resistance to scratches or abrasions.

### ARIANE ANTI-MICROBIAL TECHNOLOGY

Ariane Fine Porcelain brings to you the first commercial porcelain tableware that incorporates "Anti-Microbial Technology" and also manages to meet the demands of high-volume food-service operations from fast-casual eateries with counter service to fine-dining restaurants.

### LIMITED DANGER IN CASE OF BREAKAGE

The products are designed to avoid breakage hazards, as they break cleanly into safely manageable pieces.
