

STRENGTH AND DURABILITY

The products are designed to perform in a busy catering environment and the alumina in the vitrified clay body gives maximum strength.

HYGIENE

The vitrified clay body is fired at 1200° C, which ensures that the products do not absorb moisture and are more hygienic. The fully glazed base prevents the absorption of water and other materials.

GLAZE DURABILITY

The specially formulated glaze enhances the product performance, improving stain and metal mark resistance and durability. The durable glaze prevents thermal shock and crazing.

DISHWASHER SAFE

The high thermal shock resistance ensures that the products can withstand at least 5000 dishwasher cycles. All items are designed to fit easily into the dishwasher.
