## EFAY INTRODUCTION

2006 marked the start of Efay's brand development for its commercial melamine displayware after more than 30 years of OEM (Original Equipment Manufacturer) expertise. In a short period of time, Efay has solidified its market position, and the sales channel is continually growing.

Along with all the certificates accepted by international inspection institutes globally, Efay has a long and successful production history. The brand also uses high-quality ingredients and offers careful consideration to food safety regulations. This is the reason why famous organisations in Asia, the Middle East, Europe, and the US embrace Efay as a producer and supplier.

BCE is happy to announce that we have teamed up with Efay as the distributor for their products throughout Africa.
